

# Veliki broj mitova, praznovjernosti i laxnih vjerovawa razvili su se oko automata za kocku.

## MIT 1

Automati za kocku su programirani da donesu pobjedu ako je bilo previ[e zabiqexenih gubitaka u jednom vremenskom periodu.

## :IWENICA

Automati za kocku rade nesumi;no u svakom trenutku bez obzira na to da li je neko neposredno prije vas ostvario veliku pobjedu ili gubitak.

## MIT2

Automati za kocku daju vi[e para u odre]enom dobu dana.

## :IWENICA

Uopće nema nikave razlike da li igrate u neko odre]eno doba dana ili noći.

## MIT3

Poslije broja izgubqenih igri, igra; bi trebao da nastavi igrati daqe jer automat za kocku će da nadoknadi izgubqeno sa datim brojem pobjeda.

## :IWENICA

Automati za kocku nemogu da misle ili pamte, tako da prija[we pobjede to jest gubitci neuti;u na rezultate budućih igri.

## MIT4

Ma[ina (za kocku) moxe se prevariti sa pra;enjem kombinacija i utvr]ivanjem pobjedni;ke kombinacije.

## :IWENICA

- Mjewawe na;ina na koji igrate
- Dirawe automata za kocku to jest pritiskawa dugmeta na odre]en/poseban na;in
- Mjewawe zaloga

NETA;NO

NETA;NO

NETA;NO

- Mjewawa broja igranih kalema/linija
- Razviti specijalnu vje[tinu/ otkriti spoqni faktor
- Mjewawe brzine igre

NETA;NO

## Kako rade automati za kocku

Automati za kocku imaju kompjuterski program pod naslovom 'generator broja nasumce' koji kontroli[e wihov rad. Ovo zna;i da kompjuterski program nasumce odabere poziciju svakog simbola ili slike. Kompjuterski program kontroli[e svaki dio igre od uba;enog nov;ića ili nov;anice sve do odabirawa ishoda svake nasumce.

## Ishod bilo koje igre je nemogu;no predvidljiv

- Zbog toga treba da o;ekujete da će te na duqe vrijeme izgubiti pare jer nijedan vawski faktor neuti;e na ishod igre na automatu za kocku
- Nekoakajte svotu para koju nemoxete priu[titati da izgubite
- Poku[ajte da vodite zapisnik o svim pobjedama i svim gubitcima, tako da bi ta;no znali koliko ste potro]ili
- Ako konzumirate alkoholne napitke dok igrate na automatima za kocku- umjereno pijte- jer prekomjerno konzumirawe alkohola moxe da preuzrokuje da vi[e porto]ite nego [to ste to planirali

## Kod nekih osoba koje kockaju mogu da se razviju neki od sljede;ih simptoma

- Preumjereno razmi[qawe o kockawu
- Pove;ane svota para potro]ene na kockawe i poku[avawe da se nadoknadi izgubqeno
- Sakrivawe kockarskih gubitaka od ;lanova porodice i prijatewa
- Posu]ivawe para u zajam da bi kockali, prodaja stvari iz kućnih stvari da bi mogli platiti ra;une ili da bi se kockali
- Kockawe da bi zaboravili probleme

## A number of myths, superstitions and false beliefs have developed around gaming machines.

### MYTH 1

Machines are programmed to produce winning games if there have been too many losses recorded in a period.

### FACT

Gaming machines operate randomly **AT ALL TIMES** no matter what wins or losses have occurred in the past.

### MYTH 2

Gaming machines pay out more at special times of the day.

### FACT

It makes no difference to a machine's operation if it is played at any particular time of the day or night.

### MYTH 3

After a run of losing games, a player should continue playing because the machine will 'make up for it' by producing a run of wins.

### FACT

Previous games have no influence at all over any game, or series of games, that might be played in the future.

### MYTH 4

A machine can be tricked into producing winning combinations by:

### FACT

- |                                    |       |                                       |       |
|------------------------------------|-------|---------------------------------------|-------|
| • altering play patterns           | FALSE | • altering the number of lines played | FALSE |
| • touching the machine in some way | FALSE | • discovering a secret 'skill' factor | FALSE |
| • changing bet levels              | FALSE | • changing the speed of play          | FALSE |

## How gaming machines operate

All game results are determined by a Random Number Generator (RNG). This is a "chance machine" that selects the symbols for each game. Technology controls all aspects of the game from coin or note insertion to determining the outcome of each spin.

## Hence the outcome of any game is always unpredictable

- Therefore you should EXPECT to lose money in the long run, as you cannot use any form of skill to beat the machine
- Do not bet money you cannot afford to lose – set a limit
- Try to keep a record of wins and losses after each session of play so you know how much you are spending
- If you drink alcoholic beverages when playing, do so in moderation – too much alcohol may lead to more money being spent than you intended at the start of play

## Some players may experience problems with gambling. Signs may include:

- Thinking a lot about gambling activity
- Increasing amounts gambled and chasing losses
- Hiding signs of your gambling from family and friends
- Borrowing money to gamble, selling or pawning household items to meet bills or to gamble with
- Gambling to forget troubles
